

# IQ Small System Gateway

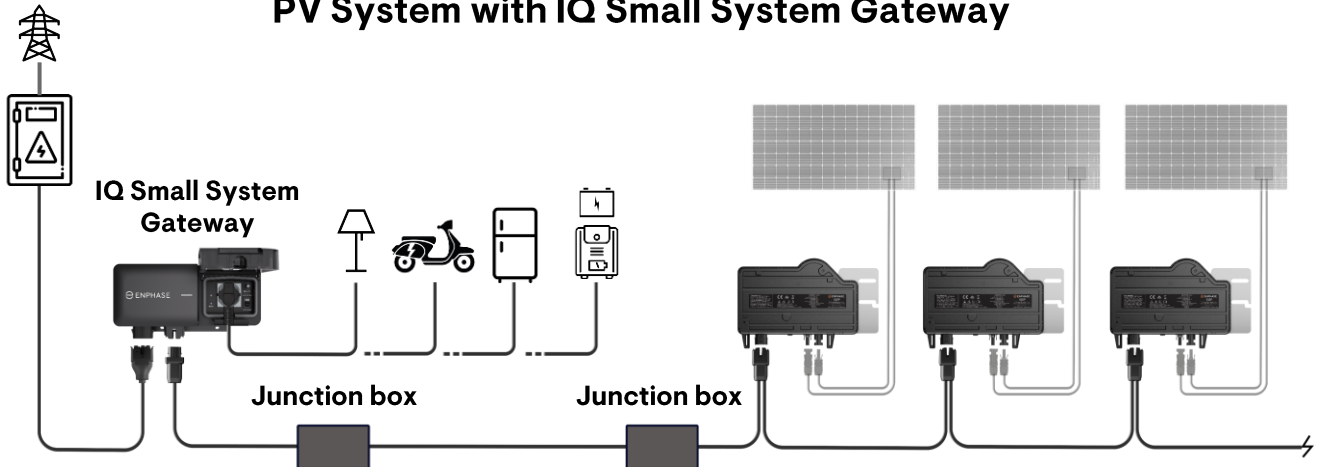

Energy independence,  
made easy

Enphase  
**5**  
Year limited  
warranty

Bringing the sun to everyone, the IQ Small System Gateway allows homeowners to easily harness up to 3.7kW of sustainable solar energy from solar panels and power loads even during daytime grid outages.

## PV System with IQ Small System Gateway

### Capture renewable solar energy

An all-in-one, easy to install system, to conveniently harness the power of the sun.

### Off-grid power

Use solar to power essentials during daytime grid outages via the built-in socket.

### Reduce your reliance on the grid

Reduce grid power consumption by powering a load with solar via the built-in socket.

### Enphase App

Monitor your system status in real time and see how much energy each panel is producing.

**IQ Small System Gateway Specifications**

<b>Max. output power to grid</b>	3680 W
<b>Max. output power to socket</b>	3680 W
<b>Rated current</b>	16 A
<b>Nominal grid voltage</b>	230 V (L-N), single -phase
<b>Auxiliary socket type</b>	Type M+D
<b>Wi-Fi / BLE</b>	802.11 b/g/n BLE 4.2 (2.4 GHz)
<b>Operating temperature range</b>	-20°C to 45°C
<b>IP Rating</b>	IP65
<b>Dimensions (L x W x D)</b>	273 × 116 × 93 mm
<b>Weight</b>	1.14 Kg

**Highly integrated solution  
for 1-phase installations**

- ✓ Integrates IQ Gateway and IQ Relay functions in one compact design
- ✓ Simplified installation and setup using Enphase Installer App
- ✓ 5-year industry leading warranty

**Built by leaders in the solar industry**  
Performance and safety you can trust.

**Bringing the sun to everyone.**
